unique, beautiful, garden park  
setting for your departed loved  
one*

Managed by the Traralgon Cemetery Trust.  
A Not-for-Profit Community Organisation

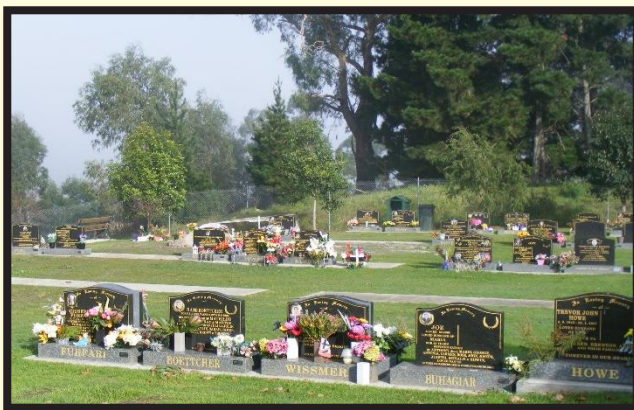

Full-size Monumental burial

Mixed Monumental burial

Monumental Lawn burial

Gippsland Memorial Park has a large range of options for burial and the memorialisation of ashes within its 15 acres of parkland.

Burial options are:

**Monumental burial** - these are areas for families to place a monument of their own design. Some monumental areas have *full size monuments* only, and some are a *mix of headstones and full-size monuments*

**Monumental Lawn burial**- these areas are lawn burial sites that have a uniform headstone design

**Crypt burial**- these areas are similar to full-size monumental areas except the grave is a water proof concrete vault. The vault can be below ground and have a full-size monument of family choice or it can be above ground as a mausoleum.

**Lawn burial**- these areas are where a plaque only is placed instead of a monument.

**Infant lawn burial**- a specially designed area established for infants. This area has lawn burial sites and ashes memorialisation sites.

**Ecological burial**- An area where people may be buried in a shroud or an ecological coffin.

Friendly staff can help with your choice of site, families may be assured of care and compassion when selecting a resting place.
